Key Highlights:	
<p>A session on soft skills for entrepreneurship was organised by the Internal Quality Assurance Cell (IQAC) and IIC on August 25th, 2022. Mrs. Anusuya said leadership, productivity, team management, sales, and communication skills are among the most valued soft skills for an entrepreneur. She added that entrepreneurship is all about networking and sharing, and it cannot exist as a one-man show, so interpersonal skills are just as valuable as personal ones in making a good entrepreneur. She underscored that entrepreneurship relies on communication and good people skills. She further stressed how practical approaches are to be adopted for startups using soft skills. The presentation was very comprehensive, informative, and insightful, and she also said the various aspects of entrepreneurship skills, attitude, and behaviour development were cited with suitable examples.</p> <p>She highlighted that soft skills are a personal attribute that supports situational awareness and enhances an individual's ability to get a job done. Soft skills are the most important qualities for entrepreneurs to have in order to make their business viable in a difficult environment.</p>
